Education

Lanzhou University   B.S. in Artificial Intelligence

                                                                September 2024 - Present

Personal Experience

Lanzhou University Open Source Community   Member

MAINTAINER OF LZUOSS MIRROR   September 2025 - Present

Skills

- Learned & Learning Courses: Data Structures and Algorithms, Artificial Intelligence Foundations, Discrete Mathematics, Probability and Statistics
- Programming Languages: Python, C/C++, Java
- Frameworks & Libraries: Pytorch,
- Tools: Git, Docker, Linux

Current Projects

- ssRvRs: a Rust-Written compiler that translates SysY to RISC-V assembly code.
- iMake: a cross-platform build tool with AI integration written by Python.
